

DESIGNED TO DELIVER

A surgeon-recommended device
used to insert breast implants*

Ask your surgeon about the

NO-TOUCH™
delivery technique.

Keller Funnel® 29

*Based on a blind survey of 46 plastic surgeons, December 2017.

A BREAST IMPLANT DELIVERY DEVICE DESIGNED BY A PLASTIC SURGEON

There are many factors that go into your breast augmentation. One of them may be **KELLER FUNNEL® 2**.

- A device that may help your surgeon more quickly insert breast implants into the breast pocket*
- **NO-TOUCH™** delivery technique lowers the risk of sterile breast implants touching your breast tissue during surgery
- Made of a clear material with a sleek coating inside that helps insert each breast implant into place

*Based on a blind survey of 46 plastic surgeons, December 2017.

3 REASONS SURVEYED SURGEONS CHOOSE KELLER FUNNEL® 2†

Easier to insert breast implants

Reduce the chance of breast implants touching nearby tissue

May keep incisions small

†Based on a blind survey of 146 plastic surgeons, December 2017.

96%

of surgeons surveyed would recommend KELLER FUNNEL® 2 to other surgeons*

93%

of surgeons surveyed agreed KELLER FUNNEL® 2 is easier to use than the traditional method*,†

*Based on a blind survey of 46 plastic surgeons, December 2017.

†The traditional method means using hands and fingers to insert and position the implant in the breast pocket.

DESIGNED TO DELIVER

A breast implant delivery device that:

- Helps your surgeon insert breast implants
- Features a **NO-TOUCH™** delivery technique
- Is only available from Allergan Aesthetics—the #1 plastic surgery portfolio*

*Based on a survey of 327 plastic surgeons, February 2023.

Ask your surgeon about the latest breast implant delivery technique.
